

Outsourcing warehousing and distribution is economical, affordable and is making lots of businesses profitable again.

The costs of running even a small warehouse can be huge, especially when you take into account the health and safety requirements, depreciation, staff wages and training, maintenance and escalating insurance premiums.

We can save you time by managing your stock, pick and pack orders and parcel deliveries.

We can deliver big cost savings by removing your warehousing overhead.

We can offer discounted parcel deliveries.

To minimize the risk of administration errors or damage, your products have dedicated positioning and minimal handling in our warehouse.

We visually check for packaging quality and all products receive an inspection upon arrival; any damage is reported to you immediately.

Goods are stored in their original packaging, as received from suppliers.

We accept goods in and dispatch parcels 5 days per week from 08:30 – 17:00.

Stock levels are adjusted on the day goods arrive.

You can login online and view your current inventory, as well as the history of each item.

Flexible and scalable warehousing without the worries and increasing costs.

Spend more time concentrating on sales and business growth.

Remove the headaches and costs of having your own warehousing space and staff.

No set up fees. No minimum quantity - we handle single items or multiple pallets.

Off-load the warehousing overheads that can cause you losses when sales are slow.

Get a faster sales cycle - if your customer is receiving products earlier, you can issue invoices and receive payment sooner.

Keep your stock at optimum levels.

Take advantage of volume discounts from your suppliers without worrying where you'll store the goods.
